## EDUCATION

### FREECODECAMP.ORG

Web Development

### CODE HELP - YT

DSA | OS | DBMS | OOPS

### SAMARPAN HIGH SCHOOL

COMPUTER SCIENCE

Gujarat, India

## SKILLS

### LANGUAGES

- Experienced : JavaScript, C++
- Intermediate : TypeScript
- Familiar : Python

### TECHNOLOGIES

- React.js • Next.js
- Node.js • Express.js • Redux
- SQL • PostgreSQL
- GraphQL

### TOOLS

- Docker • Visual Studio Code
- Git • Github • Postman
- AWS

### OTHERS

- HTML • CSS
- TailwindCSS

## LEARNED

### COURSEWORK

Operating Systems  
Computer Networks  
DataBase Management System  
Web development  
Object-Oriented Programming  
Data Structures and Algorithms  
System Design

## EXPERIENCES | E-MECH SOLUTIONS

### SOFTWARE ENGINEER | JULY-22 - JAN-24 | INDIA

Tech Stack : Next.js, React.js, Node.js TypeScript, SQL, MongoDB

- Built data-rich dashboard, seamlessly integrating Databases. Empowering users with **actionable insights** for informed **decision-making**.
- Conceived and introduced the **Automated Email Response System**, which **reduced response time** to **1,000s email** messages by 71%, resulting in increased **email open rates** and driving significant user interaction with the platform.
- Implemented **authentication** for user **account security**, allowing seamless integration with email/password or Google provider, **enhancing user data protection** and platform trust.
- Integrated wallet functionality into the payment feature, facilitating effortless **fund management** for users, thereby **encouraging repeat transactions** and strengthening user relationships.

### ASSOCIATE SOFTWARE ENGINEER | JULY-21 - JULY-22 | INDIA

Tech Stack : React.js, Node.js, GraphQL, Redux, MongoDB

- Collaborating as part of a cross-functional team and contributed to the development of a web application using **MERN stack**, driving improvements in scalability and user engagement.
- Utilized application to streamline **state management** and **data querying** processes, leading to **30% increment** in application efficiency and smoother navigation.
- Orchestrated seamless **API integrations**, leveraging Databases to ensure **Smooth data flow** and fortify system resilience.

### SOFTWARE ENGINEER INTERN | JAN-21 - JULY-21 | INDIA

Tech Stack : React.js, Node.js, Express.js, MongoDB

- Conducted code reviews and **redesigned an API** to enhance flexibility for third-party integration.
- Implemented performance optimizations using React.js, Node.js and Express.js resulting in a **reduction in load times** and **enhanced user experience**.
- collaborated on implementing new features and resolving bugs in existing codebases.

## PROJECTS

### DATA-ANALYTIC APP | CODELINK | LIVELINK

Tech Stack : Next.js, MongoDB, NextAuth

- Developed a full-stack admin dashboard, facilitating efficient **Management of product and visitor data**. Implemented dynamic components for form controls and **integrated user Authentication** with NextAuth and MongoDB.
- Utilized data visualization techniques to display **Revenue analytics and visitor statistics for enhanced Decision-making**.

## ACHIEVEMENTS

1. Solved more than **250+** questions on DSA on LeetCode and **won 1 Badge**. now days, more focus on Development cause i love to build product.
2. Proved myself With my Skillsets and hardwork in IT field As an **Self-taught**.
3. Also i am a **Singer** so yes, i can impress everyone by singing and coding. : )
